EXPERIENCE

GRAZITTI INTERACTIVE | SOFTWARE DEVELOPER

Apr 2024 - Present

AGENTHELPER - FULL STACK LLM SUPPORT APPLICATION

- Built a full-stack LLM-powered application that streamlined case handling with case timelines, AI-driven summaries, and response assistance, reducing agent effort and boosting productivity.
- Implemented **multilingual support** providing response with automatic case language detection, breaking language barriers & improved customer satisfaction with product.
- Built and scaled the application on the **MERN stack**, ensuring performance, scalability, and maintainability of the platform.
- Enhanced collaboration by **enabling in-app messaging** and LLM-powered similar-case insights for faster resolutions.

KHANNBA ENTERPRISES | JR. SOFTWARE DEVELOPER

Sept 2020 - July 2021 (With Bachelor's)

CORPORATE WEBSITE REBUILD - SEO & UX DESIGN

- Revamped the company website with **SEO-optimized, seamless designs** (in collaboration with designers), boosting traffic, lead generation, and overall business growth.
- Enhanced user experience with interactive UI elements and strategic ad placements at high-visibility spots, increasing engagement and revenue.
- Ensured reliability and scalability through best coding practices, automated testing, and debugging.

PROJECTS

JIRA SUBTASK BUDDY [Live demo](#)

- Identified a major productivity gap in Jira subtask creation & time logging within organization.
- Automated subtask creation with pre-filled fields and providing easy UI to log time; **cut 20+ clicks to just 4.**
- **Improved compliance with Jira norms**, boosting tracking & estimation accuracy.
- Independently built end-to-end using MERN & Jira APIs, leveraging AI for speed.

CHROME EXTENSIONS

GOOGLE MEETING SCHEDULER & MR - RCA FORMATTER

- Built a Chrome extension enabling **one-click meeting scheduling** from natural language (multilingual) voice prompts using AI. Automatic email fetching and finding available slots.
- Developed a Chrome extension that converts multilingual voice inputs into structured Merge Request descriptions and RCA reports, auto-formatting them to organizational standards.

INTERNSHIPS

INTERN JR. DEVELOPER

MMH HOMES

Nov 2023 - Jan 2024

Developed and maintained website features, including a real-time AI-powered hashtag suggestion tool that dynamically updates as users type, enhancing user experience, post visibility, and overall content engagement while improving site reliability and functionality.
